*J. N. J. Leitch.* ANNOUNCEMENT OF THE SALES

OF THE

BUSHNELL, BRADBURY AND SHANNON COLLECTIONS.

---

DEAR SIR :

I have received the following letter from the Messrs. S. H. & H. CHAPMAN, of Philadelphia :

We would respectfully inform you that the celebrated collection of the late CHARLES I. BUSHNELL, Esq., of New York City, has been placed in our hands to catalogue and sell at auction.

We expect to hold two sales within the next few months, viz :—

*First.*—The collection of Mr. H. B. BRADBURY, of Illinois, of American Coins, containing a collection of the United States series, including a 1794 dollar, very fine and rare dimes and half-dimes, half-dollars, cents, etc., and the collection of War Medals and Decorations of the late JOHN R. SHANNON, of Philadelphia.

*Second.*—The collection of the late CHARLES I. BUSHNELL, Esq., of New York City, of American Coins and Medals.

This will be the finest sale of this description held within the past fifteen years, and, perhaps, the finest ever sold. Mr. BUSHNELL collected only pieces pertaining to this country.

Among the Colonials, Washingtons and Early Patterns or Issues of the U. S. Mint, are some pieces of the highest rarity, and several unique, and specimens of which have never been sold at auction.

All the coins and medals are in the first possible condition, almost without exception, as Mr. BUSHNELL did not spare expense to improve the condition of them.

The Colonials include the Massachusetts Samaritan Shilling, unique ; Brasher's New York Doubloon ; New York Excelsior, George Clinton, Liber Natus ; Inimica Tyrannis ; Virginia Shilling ; Lord Baltimore Shilling, Sixpence and Groat in Silver, and Penny in Copper, unique ; a Chalmer's Shilling, unique, etc.

The Washingtons include four half dollars and cents in silver, one half-dollar, unique ; naked bust cent ; cents of 1791, etc.

The Early Patterns or Issues are complete, containing the large Liberty Cent, by Birch ; the cent of 1792, reverse eagle on a globe, unique outside of Mint Cabinet ; the Silver Centre Cent ; the Disme and Half-disme.

In the United States Mint issues the 1794 dollar is fine and a good impression. Many dollars, half-dollars, quarter-dollars, dimes and half dimes are in extraordinary condition. The cents and half-cents are one of the finest series ever sold, etc. The proof sets date from 1854.

The collection of Medals is one of the finest in the country, containing 20 Silver Medals of the Peace of 1783, including the *Libertas Americana*; the Washingtons embrace several unique, and all the finest known, among them a set of the Season Medals in silver and copper. Those of Franklin, La Fayette, and the Presidents are very fine.

We will charge a small sum for the Catalogue of the Bushnell collection, and are, we may almost say compelled, to do so for several reasons, and the truth of which nearly every collector may observe.

The first reason is the enormous waste of catalogues under the free distribution; collectors receive a copy from each of the dealers with whom they are corresponding (some have informed us they are sent five to six copies of every sale), whereas, by issuing a notice and charging for the catalogues, a collector may send his order for it and for the sale to any dealer he selects. Some persons obtain and write requesting catalogues who are not collectors, and would not do so if they cost them anything.

We will print a less number than usual on the above account, and intend to make it a work of reference, and not spare expense in the execution of the letter-press. It will always be worth the price. Each copy will cost us for printing alone more than the amount charged.

The catalogue will be quarto size, with a large margin for binding, marking, and pricing.

We will publish a catalogue, with plates of quarto size, by the phototype process. It will require *ten plates* (10), and probably more.

All copies will be sewed and the plates will be mounted on muslin.

Many coins and medals will be illustrated, which have never been photographed or given on a photographic plate, which is the only process that can produce exact pictures of them.

This catalogue will be uniform with Crosby's "Early Coins of America." It will be a sequel to many of the "pieces belonging to an unknown owner" in his work, and which are not in his photographic plates. Mr. Bushnell was exceedingly jealous of his coins, and would not allow them to go out of his possession for the illustrations.

The price of the catalogue, postage paid, 4to., 50 cents.

Same. A printed list of prices to be sent after sale, \$1.00.

The plate catalogues, 10 plates, quarto. A printed list to be sent after the sale, \$5.00.

I would respectfully ask for your orders for the catalogues and the sale.

## PREFACE.

This well-known collection was formed during the last thirty years by the late Charles I. Bushnell, Esq., a lawyer of New York city, and whose decease occurred the 17th of ninth month, 1880. About three months before his death, he gave us the pleasure of looking at his collection, a favor he very rarely conferred on any one, and in passing over it, he made many comments and remarks, and where we give his statements they are from these conversations.

Mrs. Bushnell, the sole executrix, has assured us that every piece she knew of has been placed in our hands. All are to be sold to the highest bidder.

This is the finest collection of American Coins and Medals ever sold, and we have not spared labor or expense in the preparation of the Catalogue; we had the paper made to order, and had new type purchased from which to print it.

This splendid collection contains a great many pieces of excessive rarity, which are too numerous to mention, but which will be found fully described. An opportunity to purchase the Coins and Medals relating to, and struck in this country, at all approaching the present, has not been for many years. Collectors cannot be too fully aware of the extra condition of these specimens, and it is quite probable that duplicates could not be procured. Mr. Bushnell told us he never spared expense in improving their condition, that no matter how fine a specimen was, if he could improve it he did so; he also told us that he cared but little for the dates of the U. S. Mint silver issues, and the series of which he never completed, his attention being devoted to the Coins and Medals relating to the history of this country.

We have endeavored (as we always do) to give a lucid and correct description of the pieces; in this instance, as a rule, the pieces are in the finest state.

At our last two sales, collectors, by their bids, showed that they have appreciated our efforts to give exact descriptions of Coins and did not discount our conditions, and we take this opportunity to thank them.

It has become a custom for many collectors to send their bids for a sale about two days before it occurs, and in many instances they have not arrived until after the sale was over, causing them regrets. We would urgently request that bids be forwarded many days or even weeks before the sale.

Any further information concerning any of the pieces will be cheerfully given, and, so that it may be of service, we desire collectors to communicate at their earliest convenience.

The sizes given are by the scale of sixteenths of an inch, and the numbers given are so many sixteenths.

S. H. & H. CHAPMAN.

#### SILVER COINAGE.

- 140 (1652.) Shilling. N E in punch-mark on a plain silver planchet. Rev. XII in punch-mark. Very fine. Very rare. Size 19. See plate. The first coin of America.
- 141 (1652.) Sixpence. N E in punch-mark on a plain silver planchet. Rev. VI in punch-mark. Very fine for the piece. Excessively rare very few extant. The specimen in the Mickley sale brought \$67.50. Size 14. See plate.

#### WILLOW TREE SERIES.

- 142 1652. Shilling. The tree more like a bush. As good an impression as usual. Fine for this piece. Extremely rare. See plate. Crosby, obv. 3d, rev. G1. Size 20.
- 143 1652. Sixpence. A bush. Obv. Very good. Rev. Poor. Crosby plate 1, No. 7. Very rare. See plate.
- 144 1652. Threepence. The tree resembles a full blown rose or bush. MASATHVSETS. IN. Rev. 1652 III NEW ENGLAN- D: The letters omitted are invisible. This piece is in all probability unique (Crosby does not mention it), and it is the only one known to us. Well struck, and in very good condition. See plate.

#### THE CELEBRATED GOOD SAMARITAN SHILLING.

- 145 1652. Shilling. A very good representation of the Good Samaritan attending a man by the roadside, his horse and a tree in the background. MASATHVSETS . . . IN: Rev. 1652 XII. within a circle of dots, IN NEW ENGLAND . ANO: The die very much cracked on reverse, rendering it impossible to strike any more after this one, and it is very likely that only one impression was struck. A genuine struck coin. This celebrated piece has been known to be unique for over two hundred years, and is one of the greatest gems of this collection. It was highly prized by Mr. Bushnell, who considered it the N. Y. doubloon and Lord Baltimore penny his most important pieces, valuing it at more than \$1,000, and we consider it worth any amount that can be paid for it. Extremely fine. See plate. Unique. There was in the Pembroke collection (formed about 1683, and sold at auction in London in 1848) a Good Samaritan shilling, differing from this in

many respects, and had the word "FAC-SIMILE" in the field. Our opinion is that this piece was a fabrication, engraved as a copy from probably the genuine, and very likely the present piece, and to prevent it ever passing as genuine the maker placed the word FAC-SIMILE in the field. The piece figured in Pembroke, Snelling, and Ruding is the same fabrication.

Mr. Bushnell told us that he imported this piece himself direct from England, and that there was not any doubt of its genuineness, a fact borne out in every way by the coin.

Mr. Bushnell would not permit Mr. Crosby to have this piece to place on his plates, but had an engraving made of it, which is represented on page 68, fig. 22, of Mr. Crosby's work.

## OAK TREE SERIES.

- 151 1652. Shilling. Fine. Crack in edge. Crosby plate 1, No. 11, obv. 9, rev. H. Rare.
- 152 1652. Sixpence. A fine tree with two shrubs. Extremely fine, and the finest sixpence we ever saw, being evenly and sharply struck in every part, with perfect beading all around, which is very unusual. On rev. in field it shows that it has been struck over a shilling, for the XII are visible. Crosby, obv. 5, rev. A, fig. 8, p. 48, rarity 6. Mr. Crosby states that it has not any centre mark, but he is mistaken, for it has it very prominently. Unique variety and probably the finest oak tree sixpence known. Size 16. See plate.
- 153 1652. Sixpence. A fine tree with two shrubs. It is remarkable that this rarity bears the inscription MASATHUSETS without the word IN on obv. it is, however, on the rev. Crosby, obv. 6, rev. F, rarity, 3. Uncirculated. Very rare. See plate.
- 154 1652. Threepence. A curious tree with wide open trunk. Sharp and well struck. Extremely fine. Crosby plate I. No. 15, obv. 1, rev. A 1, rarity 5. Extremely rare. See plate.

- 156 1662. Twopence. Crosby, obv. 1. rev. 3. Extremely fine. Rare.

## PINE TREE SERIES.

*Similar device to the oak tree coins, but instead of an oak, a pine tree.*

- 157 1650. Shilling. A pine tree with five branches on each side, three of which bear cones, enclosed in a circle of thirty-five dots MASSACHUSETTS - IN : border composed of dots joined together. Rev. 1650—XII within circle of twenty-eight dots. NEW-ENGLAND\*AN-DO\* border dots joined. Size 20. Weight 75 grains. Extremely fine. From Mickley sale, No. 2249, \$50. Cost Mr. Mickley \$100. See plate. Unique.

We would call attention to the spelling on this piece, it being different to all the others known.

- 158 1650. Shilling. A pine tree with seven branches, within a circle of twenty-five dots. MASATHVSETS.:IN.: Border composed of dots. Rev. 1650 XII in circle of twenty-six dots. NEW ENGLAND: AN DO. Border beaded. Very fine. Size 16. Weight 63 grains. From Mickley sale, No. 2248, \$52. Cost Mr. Mickley \$100. See plate. Three known.

- 159 1650. Shilling. A pine-tree, with four long straight limbs on each side, within a circle of twenty-nine dots. MASATHVSETS.: IN.: Rev. 1650 XII within circle of thirty-three dots. NEW ENGLAND AN. DO. Border beaded. Very fine. Size 17, weight  $76\frac{1}{2}$  gr. From Mickley sale, 2247, \$52.50. See plate.

This piece is a different variety to any known (with the exception of one from same die, also altered), it is altered from 1652, and was sold to Dr. Amme Brown, of Boston, in 1857, as an altered piece, then, in 1858, sold with the rest of his collection, and purchased by Mickley for \$100. Two known.

These three pieces, above mentioned, first appeared in 1854, when they (one of the large type and three of the small type), were sold to Dr. Amme Brown, of Boston, by a person from Boscawen, N. H. In 1856 or 1857, the same person brought him the altered piece, and sold it to him as an alteration, for \$5. They have occasioned a great deal of controversy, but are, in our opinion, false and struck from dies. Dr. Brown sold his coins in 1858, when these were purchased by Mr. Mickley, and sold at the sale of his collection as genuine. We place these pieces on the plates, that collectors may see for the first time a photograph of them.

- 160 1652. Shilling. Piece out of edge. Crosby, obv. 1 a, rev. C, rarity 4. Very good. Rare.
- 161 1652. Shilling. Fine tree, with open trunk. Crosby, obv. 1 b. rev. D. fig. 13. A strong, even impression. Extremely fine. Rare. See plate.

- 163 1652. Shilling. Very wide tree. Crosby, obv. 3, rev. F, rarity 5, plate II., No. 2. A very fine piece. Extremely rare. See plate.

 247 1774. Shilling. Large bust to right, differing greatly from the half-  
 penny portrait, and similar to the portrait on the regular sovereign;  
 GEORGIUS. III DEI. GRATIA. Rev. Shield crowned, VIRGINIA, 1774. Sil-  
 ver. Proof. Excessively rare; but three known. See plate. One in  
 sale March 20, 1865, brought \$190, and this piece is worth that amount.

There is no doubt in our minds but that the Virginia coins were issued and used in circulation. The half-pennies we have had in all states of preservation from very poor to proof. The shilling is not only of a different date, being 1774, while the half-pennies are dated 1773, but is of a totally different obverse, and is the size and weight of a shilling of George III. These pieces should be more highly appreciated by American collectors. Many collectors have thought that the bright red half-pennies were restrikes, but they are all genuine and from a find made in Baltimore many years ago. There are over twelve different varieties, which shows that numerous dies had been prepared for an extensive circulation. These pieces have every appearance of a regular British coin of the period.

#### MEDALS ON THE WAR BETWEEN ENGLAND AND FRANCE. 1755 to 1763.

*Generally termed in this country "The French and Indian War."*

## M E D A L S

ON THE

INDEPENDENCE OF THE UNITED STATES, THE REVOLUTIONARY  
WAR, AND THE DECLARATION OF PEACE.

*All the following medals are in extremely fine condition, and struck in silver, unless otherwise mentioned:*

- 291 Libertas Americana. Beautiful head of Liberty, with flowing hair, to left, a Liberty cap on a pole behind the head; LIBERTAS. AMERICANA; in exg. 4 JUL. 1776. Rev. The infant Hercules on his shield-shaped cradle, strangling a serpent in each hand; Minerva standing over him repelling the attack of the British Lion, and protecting him with her shield, surcharged with the lilies of France, and against which the lion has placed his fore-paws; NON SINE DIIS ANIMOSUS INFANS.; in exg. <sup>17</sup>/<sub>19</sub> Oct. <sup>1777</sup>/<sub>1781</sub> By Dupre. Extremely fine. Very rare. 30. See plate.

This medal was designed by Benjamin Franklin to commemorate on the obverse the Declaration of Independence, and on the reverse the surrender of Burgoyne at Saratoga, and Cornwallis at Yorktown, Hercules personifying the United States, the serpents the two armies, the dates in exg. being those of the surrenders, Minerva, France, and the Lion, Britain. A very beautiful medal. The rev. design of Hercules the same as, and probably from, a coin of Crotona of the 4th century, B. C. It is, in our opinion, from the obv. of this medal that the designs of the cents of 1793 to 6 were taken.

- 292 Same. Bronze.

## THE EARLIEST COINS OF THE UNITED STATES.

- 712 1776. Dollar. Thirteen rings interlinked, each bearing the name of a state, in centre WE ARE ONE, surrounded by a band bearing AMERICAN CONGRESS; the field between centre and rings filled with a glory. Rev. A sun-dial, the sun shining on it, beneath MIND YOUR BUSINESS, surrounded by two circles, between which and near the sun, FUGIO; around the whole CONTINENTAL CURRENCY 1776. - 714 Similar. CONTINENTAL CURRENCY (sic). V. fine. Tin. Rare. See plate.
- 715 Similar. The rings beaded, but partly cut into lines. Brass. Very fine. Excessively rare. Only two being known. The other being in the collection of Mr. W. S. Appleton. Size 24. See plate.

These pieces we consider to be among the most interesting of American coins, as they were the first coins designed for the United States, and it is related that the Americans had to flee from Philadelphia where they were striking them, and afterward issued them at Lancaster, Pa.; but one is known in silver (in the collection of Mr. L. G. Parmelee, of Boston), which shows the depleted state of the

U. S. treasury at that time. They are far rarer than collectors in general consider them to be, and some day will bring greater prices than they have.

## STATE OF NEW JERSEY.

## COPPER COINAGE.

*Device. Horse head to right above a plow; NOVA CÆSAREA, date beneath.**Rev. A United States shield; E \* PLURIBUS \* UNUM \**

- 920 1786. The piece with the date under the plow beam; the horse head small, and the plow without coulter; NOVA CÆSAREA. 1786. Rev. A large, well formed U. S. shield, \* E \* PLURIBUS \* UNUM \* Obverse and reverse unique. An even, strong, bold impression, with nearly complete serrating. Extremely fine. Light olive. See plate. Unique.

Mr. Crosby makes an error when he describes this as being Obv. 8, Rev. G. It is not, his rev. G being distinctly different. He probably did not see the piece, as Mr. Bushnell would not show it, and Dr. Maris only obtained a very miserable impression from it, which he gives on his plate as No. 8, F. It was purchased at Mickley sale, No. 2476, for \$65, but it was not then known to be unique, and it is now worth many times its cost. The only other New Jersey with date under the beam is a distinct variety from this. It was formerly in the collection of Mr. A. S. Jenks, of Philadelphia, and was purchased at the sale of his collection for \$125, by L. G. Parmelee, Esq., of Boston. It is the one on Crosby's plate VI. No. 17.

## SUPPLEMENT TO THE BUSHNELL CATALOGUE.

### THE SAMARITAN SHILLING OF THE COLONY OF MASSACHUSETTS.

This coin, which was described in the catalogue of the collection of the late Charles I. Bushnell by the undersigned, being the only specimen known, has created much interest, and we have decided to publish some additional facts in regard to it which we have learned since the sale.

The description in the catalogue, Lot No. 145, was as follows:

1652. Shilling. A very good representation of the Good Samaritan attending a man by the roadside, his horse and a tree in the background. MASACHUSETTS . . . . IN: Rev. 1652 XII. within a circle of dots, IN NEW ENGLAND . ANO: The die very much cracked on reverse, rendering it impossible to strike any more after this one, and it is very likely that only one impression was struck. A genuine struck coin. This celebrated piece has been known to be unique for over two hundred years, and is one of the greatest gems of this collection. It was highly prized by Mr. Bushnell, who considered it, the N. Y. doubloon and Lord Baltimore penny his most important pieces, valuing it at more than \$1,000, and we consider it worth any amount that can be paid for it. Extremely fine. See plate. Unique. There was in the Pembroke collection (formed about 1683, and sold at auction in London in 1848) a Good Samaritan shilling, differing from this in many respects, and had the word "FAC-SIMILE" in the field. Our opinion is that this piece was a fabrication, engraved as a copy from probably the genuine, and very likely the present piece, and to prevent it ever passing as genuine the maker placed the word FAC-SIMILE in the field. The piece figured in Pembroke, Snelling, and Ruding is the same fabrication.

Mr. Bushnell told us that he imported this piece himself direct from England, and that there was not any doubt of its genuineness, a fact borne out in every way by the coin.

Mr. Bushnell would not permit Mr. Crosby to have this piece to place on his plates, but had an engraving made of it, which is represented on page 68, fig. 22, of Mr. Crosby's work.

It was purchased by Lorin G. Parmelee, Esq., of Boston, for \$650.

The correspondence of Mr. Bushnell has been examined in search of information regarding it, and two letters have been found from the gentleman who sold it to him.

He purchased it in 1858 from the late Charles Richard Taylor, of London, an eminent numismatist, noted not only for his knowledge of his profession but for his gentlemanly and honorable character.

The two letters written by Mr. Taylor relating to the specimen state very fully his views regarding it and the piece mentioned in Pembroke, Folkes, Snelling and Ruding, and we give them in entirety :

CHARLES I. BUSHNELL, ESQ.

2 Montague St., Russell Square, W. C.  
London, July 9th, 1858.

DEAR SIR :

I wrote to you on the 27th May last, to inform you that I had a shilling and sixpence of Lord Baltimore, being desirous, according to my promise, of giving you the first offer of anything likely to suit you, and, awaiting your reply, I have retained them accordingly ; with the same view, I have now to offer you what I conceive will interest you far more ; it is nothing less than a unique variety of the Good Samaritan Massachusetts shilling. It differs materially from the one formerly in the Pembroke collection and from the other engraved in Ruding, Pl. 30, No. 10, the existence of which is now very doubtful. Ruding incorporated the plates, so far as they would go, which were engraved for the previous works of Martin Folkes, and he expressly says that he knows not on what authority it has been given. Snelling, describing the piece, says : "It is said to be in the Pembroke collection" (which was a truth) ; he had evidently not seen it, but, curiously enough, he copied the obverse from Folkes' plate (Ruding's) and the reverse from the Pembroke plate, thus giving a representation of a coin for which there was certainly no authority whatever, the obverse differing from the only known (Pembroke) specimen in reading "In Masachusetts" in full, instead of Mas with dots in place of the remainder, and from the doubtfully existing coin of Ruding by having, instead of a blank, the reverse of that in the Pembroke.

My coin is not only unique but the most perfect. It has a well-executed representation of the Good Samaritan, and reading in full "In Masachusetts" ; but the subject is allowed to speak for itself, as the direction *Fac-simile* is omitted ; the reverse also has an important difference, reading "In New England Ano" round the edge, and in the centre 1652—XII, without the O beneath. It is 5 grains heavier than the Pembroke one and is a perfectly genuine struck coin, the reverse die evidently in the act of breaking from a flaw which, though in this instance it obscures no part of the coin, has an appearance which renders it probable that no others could be afterwards struck from it. The style of the work and lettering corresponds exactly with the pine tree shilling of the same date. I am inclined to think, from the fact of the Pembroke specimen being so imperfect in the inscription, and from mine being more complete in that respect, as well as their extreme rarity, that they were pattern or trial pieces, and for some reason not adopted by the authorities.

I notice that, in a former letter, you gave as a reason for doubting the authenticity of the Pembroke specimen that no such piece was mentioned in the records of the State ; but is it not questionable whether the records of a

thinly peopled State were so perfectly and accurately kept? For you state likewise there is no mention of the two-pence and three-penny pieces, pine tree coinage, but the number now known, quality and weight of silver, style of work, and relative degrees of wear, all tend to prove them to have been as authentic, and in circulation, as were the sixpences and shillings.

The catalogue describes the Pembroke specimen to have been much rubbed; mine is not so, but has been somewhat unevenly struck, the five last letters in "Masachusets" not having come up so prominently as the others.

I purchased this piece with some rare English coins, which has occasioned my incurring an unexpected outlay which I am anxious to realize with as little delay as possible, and I offer you this rarity at £8.8.0. There is no doubt but that, at the present time, I could get much more for it, without any great difficulty, but I could not part with it until I had made you the first offer and at as reasonable a rate as I could afford. I have some intention of sending a notice of it to the "Numismatic Chronicle"; but this I would not do without consulting you in the event of your becoming its owner. I beg to assure you that you are the first person to whom I have yet intimated the existence of this piece, and as I shall preserve silence until you have had an opportunity of replying, I hope to be favored with your decision *per return*.

(Signed)

CHARLES RICH. TAYLOR.

2 Montague St., Russell Square, W. C.  
London, 28th December, 1858.

MY DEAR SIR:

In reply to yours of the 30th ulto. I do myself the pleasure to send for your inspection the "Good Samaritan Shilling."

I can certainly vouch for its being none of Mr. Wyatt's production; for not only is it very different, on the one side, to the rubbing you sent me of his Pine Tree Shilling, with which I have compared it, but *I was told of its existence when your earliest letters first put me on enquiring for all pieces relating to America*, but as it seemed hopeless to procure it, I paid little attention to the circumstance.\*

I am not going to recapitulate the contents of my last, but I must trouble you to say that I am by no means satisfied that the unique specimen in the Pembroke collection either was or could be in any way spurious, neither can I attach the least importance to the note to the lot describing it in the sale catalogue of that collection of 1848. That catalogue was drawn up by the late Mr. Burgon expressly on account of his being most justly considered the most competent authority on Greek and Roman Coins, to which he had exclusively directed his studies, thinking those classes alone worthy attention or appreciation.

It is also necessary to bear in mind some particulars relating to the Pembroke

---

\* This shows that Mr. Taylor knew of its existence before that time, and from the way he mentions it, it may be supposed some years.

collection to which the newspaper extracts you sent me make no allusion. The Earl Thomas, by whom that celebrated collection was formed, succeeded to the title so early as 1683, and died in 1733. The fourth volume of Plates issued in his name was not completed and published until 1746, by his son and successor. The collection, however, remained intact until its dispersion by the present Earl in 1848, under the superintendence of his half brother, Mr. Sydney Herbert, the Earl being a constant resident abroad, which may probably account for the collection being wholly unknown, except through the volume of 1746; indeed, it seems seldom, if ever, to have been exhibited since the decease of the original collector, for Snelling when publishing his work, had no access to it, but obtained all his information from the Plates; and, in fact, when he speaks of coins said to be existing in the Pembroke collection, acknowledges that he had no opportunity of judging for himself in the matter. I cannot, at this moment, discover the date of the birth of the Earl Thomas, but as he succeeded to his brother in 1683, and his father had died so early as 1669, the last, at the least, must have been living at the date of this coin or pattern.

I am, to a considerable extent, justified in regarding it as genuine, in the absence of anything like proofs to the contrary, as there could be no motive or interest to be gratified by fabricating a spurious piece relative to a distant possession of so very recent date as was 1652, at the time when the collection was formed.

Ruding's plate 30, first published by Folkes in 1763, is not copied from the Pembroke plate; it is altogether different, and although the specimen it purports to represent may not be now known, I cannot think that any one will venture the supposition that so eminent a gentleman and antiquary as was *Sir* Martin Folkes could have published such without having sufficient authority for so doing. Snelling's engraving goes for nothing, as he had seen no specimen, but finding such good authority for the existence of the piece, he could not but notice it without damage to the completeness of his work, and therefore copied the obverse from Folkes, and the reverse from Pembroke. Now comes the specimen sent herewith, differing from the Pembroke, and five grains heavier, from Folkes and also from Wyatt's even. I am quite at a loss to conceive what the inducement could be for fabricating a piece of such little interest and value; for certainly until very recently it could possess neither; yet before the least attention could be attracted to its existence, here are evidently two pieces struck from dies altogether different,—the Pembroke and mine, to say nothing of Folkes. It could never answer to coin spurious specimens in such small quantities, as that, after the lapse of two centuries only two specimens alone should be known, and both of these unique varieties.

I am still in the belief that they were pattern pieces, struck and submitted when the issue of a coinage was first contemplated in the Colony, and this supposition will alone account for the unfinished character and rarity of these pieces, and, since they were not adopted, for the absence of any mention of them in the records. (It will be seen that the date side of the Pine Tree Shillings is different and more complete than in the corresponding side of either of the pieces in question.)

The die from which mine is struck was evidently soon broken ; probably no other could have been struck from it, hence the necessity for a new one being made, even for the limited service of a pattern piece. It must be remembered that it was particularly the custom to strike pattern pieces,—witness those for the entire sets of silver for the Commonwealth coinage by Ramage and by Blondeau, the former the most beautiful, and while the design of the latter was adopted, he could hardly have been employed, as those struck for circulation were not milled, and are of much coarser workmanship. Now all these patterns were struck in 1651, and now are much in request, and always produce very high prices.

I respectfully submit these observations for your consideration, and you will take them for what they may seem to you to be worth. I am satisfied this piece is of no recent make, and what I offer in defense of its genuineness is not with any view for you to retain the piece against your judgment. I am anxious only that you should be convinced that I submit it to you in perfect good faith according to my own convictions, and that I should not trouble you at this length, or indeed had anything to do with it at all unless I felt myself free from any reasonable doubt in regard to it. \* \* \*

(Signed)

CHARLES RICH. TAYLOR.

We think Mr. Taylor very thoroughly reviewed the whole ground, and was correct except in regard to the authenticity of the Pembroke specimen, on which question he was in error in passing it as genuine ; as we have also the opinion to the contrary of Mr. Wm. Webster, of London, to whom we wrote concerning it, and who replied : “I know well the piece that was in the Pembroke sale, Lot 229, as I was present at the sale, and the general opinion (including my own) was then as now, that it was a forgery and an undoubtedly ‘made up’ coin.”

The Pembroke specimen is described in the catalogue of the collection, page 46, No. 229, as follows :

Massachusetts Shilling, *much rubbed*, but shewing on both sides the remains of the types and legends. *By the dexterous use of a punch some artist has contrived to produce on this rubbed coin a worn representation of the group of the good Samaritan, and the words FAC SIMILE, which has given rise to much discussion.* See Rud. xxx, 10, and note *m*, page 368, vol. iii, Pemb., p. 4, t. 14, unique, wt.  $69\frac{8}{10}$  grs.

It appears to us that the specimen in the Bushnell sale was the original production for a pattern shilling of this design, and, from the fact of the die breaking so badly as to render it unfit for further use, that then the piece pictured by Pembroke, Folkes and Snelling, was made and engraved, the words FAC SIMILE being placed in the field, so that it should never deceive or be taken for a genuine coin ; and we cannot see how it can be considered as anything but what is stated on its face by the maker,—a fac-simile ; that the word fac-simile was intended to merely convey the idea of its being a copy of the scene of the

Good Samaritan seems to us to be a misconception; for the word fac-simile is not used with this meaning.

We have proved that Mr. Bushnell imported it from England, purchased it of a responsible dealer, and at the period of twenty-five years ago, which was before American coins brought great prices, and but a few sales had been held.

The coin is a struck piece, and as stated above, we prove its existence before it would have paid anyone to make the dies, which are not of recent workmanship, as shown by the coin, which is of the same general style of execution as the Oak and Pine Tree money.

When such experienced collectors of American Colonial coins as Messrs. Bushnell, Crosby and Parmelee give as their opinions that it is genuine and see no cause to doubt it, to what better judges could it be submitted?

Mr. Crosby in his book entitled "The Early Coins of America," on page 67, expresses his opinion as follows:

"It remains for us to mention one other piece belonging to this series, the genuineness of which has been doubted. We refer to the Good Samaritan Shilling, whose claim to a place among the issues of this mint we consider as being fully established by the specimen in the collection of Charles I. Bushnell, Esq., of New York. See Fig. 22, page 68."

"For the argument in favor of this piece, which, had it not been so generally thought to owe its origin to a more recent period, we should consider as needing no argument to establish its claim, we are indebted to the kindness of the owner, and we here give it place in his own words:"

And then follows a letter from Mr. Bushnell, which is an adaptation of the letters of Mr. Taylor, whom the former evidently considered to have so thoroughly canvassed the several arguments as to leave no room for improvements or additions.

THE sale was very successful; the grand total being \$13,900.47, which proves it to be the largest coin sale ever held in America, and it is by far the finest collection of American coins and medals only, that has been offered.

We have noticed the following, and a very few typographical errors, which always occur in a work when it is published in such brief time:

No. 193, instead of three, four known; No. 256, Kittaning, read Kitting; No. 289, knawing, read gnawing, and see No. 1276 for correct spelling; No. 356, Carrol, of Carrolton, read Carroll, of Carrollton; No. 368, Harvard, read Yale; No. 371, 1813-39, read 1814-39; No. 428, Fennimore, read Fenimore; No. 856, 27-E, read 37-E; No. 1844, a perfect electrotype copy; No. 1954, after Rocky insert Mountains; No. 1976, Hamilton, read Hamlin, and No. 1982 ditto; No. 2972, Logan, read Cogan, and 2978 ditto.

But 500 copies of this catalogue were printed, and of these only 100 were issued with plates.
